Product Description

We are a product line specializing in high-end hotels, spas, resorts, and boutique homestays for bath towels and bathroom towels. Our towels provide you with a luxurious and comfortable shower experience. The following is a detailed introduction of our product.

Our hotel spa towels are made of 100% Xinjiang cotton, which is soft, comfortable, and highly absorbent. They can take away moisture within three seconds after showering or taking care of the skin, quickly achieving dryness and comfort. Compared to regular spa towels, our towels have finer fibers and are perfect for spa treatments, body wiping after bathing, and hotel home use.

In terms of design, we adopt the most advanced international technology from textile to dyeing. The luxury hotel spa towels use double-sided edge sealing technology, which is not easy to deform or detach. In addition, our dyeing process uses environmentally friendly reactive dyes, which provide strong color retention and prevent color loss even in high-speed rotating washing machines, greatly reducing the operating costs of the hotel. At the same time, our SPA towels can come in various sizes, such as bath towels, face towels, face towels, and other specifications, which can provide practicality for places with different needs. In addition, we can also provide you with professional customization services, such as embroidering hotel logos or patterns. The most important thing is that we can also provide gift box packaging for our towels, and we can also provide you with the most popular gift box towels now.

We can provide you with a one-stop solution, including sample shipping, sampling, fast delivery, and after-sales service. Our minimum order quantity is quite flexible, and the price is also very affordable. We look forward to achieving long-term cooperation between our team and yours.
